

## Energy classification

# Aritco HomeLift Access

## ENERGY CLASSIFICATION A

Estimated annual energy consumption is 342 kWh.

Report for energy calculations and classification

SS-EN ISO 25745-2:2015 used as a reference.

## Reporting of evaluation

Name of manufacturer: Aritco Lift AB

Date of evaluation: 2023-04-21

Classification of lift: A

Estimated annual energy consumption: 342 kWh

Drive system type: Traction lift (Screw and nut)

Rated load: 410 kg

Rated speed:  $\leq 0,15\text{m/s}$

Average acceleration:  $0,3\text{ m/s}^2$

Average jerk:  $2\text{ m/s}^3$

Travel height: 3,6 m

Number of stopping floors: 2

Number of trips per day: 20

Usage category: Category 1

Idle power: 31 W

Standby power: 30 W

Time to reach standby mode: 1 min

Time to recover from standby mode: 1 s

Operating days per year: 365 days

Specific running energy for the average and reference cycle:  $7,7\text{ mWh}/(\text{kg}\cdot\text{m})$
