

## Energy classification

# Aritco HomeLift Compact

### ENERGY CLASSIFICATION A

Estimated annual energy consumption is 220 kWh.

Report for energy calculations and classification

SS-EN ISO 25745-2:2015 used as a reference.

### Reporting of evaluation

Name of manufacturer:	Aritco Lift AB
Date of evaluation:	2023-02-14
Classification of lift:	A
Estimated annual energy consumption:	220 kWh
Drive system type:	Traction lift (Screw and nut)
Rated load:	250 kg
Rated speed:	$\leq 0,15\text{m/s}$
Average acceleration:	$0,3\text{ m/s}^2$
Average jerk:	$2\text{ m/s}^3$
Travel height:	3,6 m
Number of stopping floors:	2
Number of trips per day:	20
Usage category:	Category 1
Idle power:	23 W
Standby power:	17 W
Time to reach standby mode:	1 min
Time to recover from standby mode:	1 s
Operating days per year:	365
Specific running energy for the average and reference cycle:	$10,2\text{ mWh}/(\text{kg}\cdot\text{m})$
